Red Rock Elementary School District No. 5

"Striving for Excellence...Everything Counts!"

Curriculum Revision & Adoption Process

In collaboration with our educators and administration, the Red Rock Elementary School District renews and/or designs its K-8 curriculum standards regularly. Red Rock Elementary School District aligns curriculum with Arizona's Academic Standards and related national standards. A formal and comprehensive process is used to design and implement a system-wide K-8 educational programming that enables all students to learn at challenging levels. We strive to offer high quality curriculum resources that support evidence-based instructional practices in our classrooms. All standards and programs are approved by the governing board.

Currently, the district is undergoing a K-8 English Language Arts revision and adoption. A team of educators and Link to resources administration will be working collaboratively over two years to create a curriculum framework for ELA based on Arizona's English Language Arts Standards.

60-Day Preview of Primary and Supplemental Resources

The link below is a list of primary and supplemental resources that are currently under consideration for adoption by the governing board. The resources are available for review by the public in the front office of Red Rock Elementary School, from 2:30-3:30PM for a period of sixty days.

The governing board will consider adoption of the primary and supplemental materials/resources at a board meeting following the 60-day preview period. Anyone who wishes to provide feedback about a listed resource(s) may use the feedback form below. The form can be sent electronically to Stacey LeFager at slefager@redrockschools.com or mailed to the attention of Mr. Dwyer at 20854 E. Homestead Drive, Red Rock, AZ, 85145.
