

# Embracing Everyone

## Our Students

Every Red Rock staff member has the privilege and opportunity to create a positive impact on each student. Every student is our student!

## Culture

We foster a culture that supports every student at their individual level, embracing their unique needs. By working together as a team, we open doors for growth .

## Assumed Competence

We believe all students are capable of learning and participating across all environments. We focus on the gifts and strengths students bring into our school.

## Communication

We have open and inclusive communication that includes all stakeholders. Celebrating and sharing successes is a priority!

## Individualization

We work hard to design and implement supports as unique as the students that need them. We help where help is needed and allow students to blossom on their own whenever possible.
